13. **Makeup runs** are not allowed except in the case of an immediate family event and then only pre-approved by the board of directors. We will not allow makeup runs because of scheduling conflicts with other associations and/or any other events.

14. Rough Stock Events: BOYS ONLY IN SENIOR DIVISION

1. **Rodeo Stock:** All animals used in bucking events will have been tried at least once before being put into the draw, with the exception of steers, cows and calves. Stock Contractors are to provide at least 1 more stock than number of contestants.
2. **Drawing Stock:** Chutes are to be loaded with stock first and then drawn. Any attempt to trade or influence the draw of stock will result in contestant being disqualified from that event. One designated person is to flank ALL rough stock. Flanking is to be consistent in all divisions.

If a contestant elects not to ride the animal once it is loaded in the chute, he/she must formally scratch with the chute boss.

3. **Equipment and Riggings:** All rough stock event contestants must wear

an approved safety helmet and a protective vest and a belt or rope around the waist. Contestants must provide their own protective vest. All bareback riggings and bull/calf ropes must be approved by the stock contractor and if a rigging/rope is made to ride one-handed contestant must ride one handed, and if a rigging/rope is made to ride two-handed contestant must ride with two hands in the rigging/rope. Bareback rigging protective pads are required. When a contestant uses their own bareback rigging, they are required to provide a protective pad.

No sharp or locked rowels are to be worn, except in calf riding in which locked rowels will be permitted provided there is at least a 1/4 turn (applies to all divisions). No wraps or handholds that interfere with free and easy release from the animal are allowed. Contestants may pull riggings from either side. **Mouthpieces are mandatory in all rough stock events in all age divisions.**

4. **Judges and Scoring:** All rough stock events are timed and a score is awarded. Time begins when animal's shoulders cross the gate line of the chute into the arena. A signal at the end of the time shall be provided for the judges. Judges are instructed to use the full point spread, as follows: ride and animal to be judged separately - up to 25 points for the rider based on spurring, control, and general quality of the ride; up to 25 points for the animal's performance. Judges must time each ride that does not make the 8 second whistle (except in the junior division which is 6 seconds) and record the time for the ride.
5. **Re-rides:** Re-rides are automatically granted if equipment of the stock contractor is faulty or breaks, or if the flank comes off and a qualified ride has been completed.
6. **Bareback Steer Riding Regulations:** Contestants may use their own riggings, if first approved by the stock contractor, and if they meet the following criteria; no two handed riggings, not over ten inches wide at handhold, not over six inch "D" ring, and not a "freak." See #3 above. Contestants are responsible for pulling riggings; if rigging comes off during ride (without breaking) contestant is disqualified.

Riding is to be done with one or two hands at the choice of the contestant. If a contestant starts a rough stock ride with two hands, he/she must complete the ride with two hands.

If riding one handed, rider is disqualified for touching animal with free hand or other body part above the waist.

Rider off to the side of the animal far enough to be judged "out of control of the ride" may be disqualified by the judges.

Resin not allowed in bareback riding.

Senior contestants must have spurs touching the horse above the break of the shoulders when horses' front feet hit the ground on its initial move out of the chute.

Saddle Bronc Steer/Cow Riding

1. Riding to be done with one rein and saddle. Standard Bronc rein and saddles must be used.
2. One arm must be free at all times and must not touch animal or rein with the free hand. Rein must be attached to the neck of the livestock. Back cinch to be buckled around livestock's hind quarters below tail.
3. Ride will be judged to a maximum of 8 seconds from the time that the livestock's shoulder passes through the plane of the chute.
4. To qualify, rider must attempt to have spurs over the break of the livestock shoulders and touching the livestock when livestock's feet hit the ground on the first jump. If a livestock stalls coming out of the chute, either judge may tell the rider Mark out rule will be waived
5. Mark out rule will be waived only if rider is fouled on pull gate, back of chute, or neck rope, all at judges' discretion. If livestock comes out of chute backwards, mark out rule will be waived.
6. Time will start when livestock leaves the plane of the chute with the inside shoulder, and will stop when buzzer sounds.

7. All livestock must be flanked. If flank comes off or breaks before the 8 second ride is complete, the rider is entitled to a re-ride, providing the rider has made a qualified ride.

9. **Calf/Bull Riding Regulations:** Contestants may use their own bull ropes, provided they meet the following criteria: rope has a bell, no metal rings, has a hand hold, has no knots or hitches to prevent free release from animal. See #3 - Equipment and Riggings
Riding is to be done with one or two hands at the choice of the rider. If a contestant starts a ride with two hands, he/she must complete the ride with two hands. Senior contestants must ride one handed.
If riding one handed, rider will be disqualified if the animal is touched with the free hand or body part above the waist.
If the rider is off to the side of the animal far enough so that the bell is no longer under the belly, or otherwise is judged "out of control of the ride" by the judges, the rider may be disqualified.

8. Length of Ride: All rough stock rides will be 6 seconds except in the Senior division which will be 8 seconds. However, judges will time each ride in the event that there are not enough qualified rides to fill the event or the contestant exhibited a better/more advanced riding skill during the ride. JR. Calf riders will be placed according to length of ride if there are not enough scored rides. Intermediate and Seniors must make a scored ride. Saddle cow will be 8 second.

C. Timed Events:

1. Judging: All gaming events shall have a field judge (Gaming Director). If timed from the arena, there will be two timers, if timed from the announcer's stand; there will be a flagger in the field in addition to the two timers. Disqualification may result from contestant hitting horse in front of the cinch during timed run.

Contestant may be penalized for not being ready to enter the starting gate within 15 seconds of being called by the gate keeper.

In the Timed Events, each contestant is responsible for their own equipment and failure of that equipment will **not** result in the option for a rerun.

2. Competitor's Horse:

If one or more contestants use the same horse in the same event, the contestant is required to notify the Rodeo Assoc. on their entry form that they are sharing a horse and in which events the horse will be shared. When sorting the order of the event, the Rodeo Assoc. will separate the contestants which use the same horse by at least eight (8) contestants. Any other changes of contestant order must be reviewed and approved by the Event Director.

3. Goat Tying Regulations:

Starting lines in the goat tying will be subject to ground rules. A clearly visible starting line shall be provided. The stake and the starting line will be permanently marked for the entire go-round.

A contestant may change horses in this event. Arena permitting, the gate will be in the center. Arena gate must be closed immediately after contestant enters the arena and kept closed.

Time to be started between two flags/poles marking the starting line. Time will start when the horses' nose crosses the starting line.

All goats are to be tied down three (3) times before the Rodeo. If goats have been used at a previous rodeo, they do not have to be tied down before the rodeo.

All goat collars need to be the same and snug. Ropes all need to be the same length. Goats need to be the same size and weight in each age division. (ie; smallest goat for underage, to largest goats for seniors.)

Flaggers to stand in the same place for each contestant.

All goats to be tied a maximum of five (5) runs before another run on the goats can begin.

Goat handler must stand directly behind the goat. Judges and directors

will position themselves so they have a clear view of the goat rope and the horse.

Time limit shall be one (1) minute.

There should be a 15yard starting line. Starting line should be a minimum of 100 feet from the stake. The goat should be tied to a stake with a 10 foot rope. The stake should be completely underground so that no part of the stake is visible.

The contestant should be mounted on a horse and must ride from the starting line to the goat, dismount from the horse, throw the goat by hand, cross, wrap and tie by hand, at least 3 feet of the goat together with a goat string, be it leather or rope, or a pigging string. No wire is allowed.

If the goat is down when the contestant reaches it, goat must be elevated high enough to have the opportunity to regain its feet and then stand clear of the goat when the tie is finished.

Legs must remain crossed and secure for 6 seconds after the completion of the tie. While judge is performing 6 second time limit, the contestant may not touch, gesture, motion or make any noise to distract the goat. A legal tie is at least one complete wrap around 3 legs with a half hitch, hooley or knot.

10 second penalty will be assessed for a contestant's horse crossing the goat rope or coming in contact with the goat. It will be judge's discretion if the contestant will get a rerun if the goat breaks away from the rope at any time during the run.

Goats in Junior division must remain tied until contestant is off the goat.

Underage Goat Tail Undecorating: Same as Goat tying except the goat will be held. The contestant must race to goat and pull the ribbon off the tail and put hands up to get a time. **Holding horse while contestant dismounts is not**

considered a lead and is encouraged. No one is allowed to help assist the contestant with the goat or ribbon pulling at any time. All contestants that are led down and/or helped dismounting from their horse will place below the contestants that go on their own with no assistance.

4. **Senior Boys Calf Tying Regulations:** Calf will be tied from post; contestants will draw for cattle, time starts when hand leaves post. Length of rope must be the same for everyone.

5. **Barrel Racing Regulation.1:** When Barrel Racing is held in an indoor arena, three barrels will be set in the configuration of 20-60-80 feet in a triangle with the starting line set 20 feet from the front barrels. When Barrel Racing is held in an outdoor arena, three barrels will be set in the configuration of 40-80-90 feet in a triangle with the starting line set 40 feet from the front barrels.

A running start may be used, with the flagger signaling start of time when contestant crosses start line. A cloverleaf pattern will be run around the

barrels, in either direction. Rake will occur every 7 barrels, with all 3 barrels moved off the markers to rake.

Time will be stopped when contestant recrosses start line. Contestants may set up or touch barrels without penalty. A penalty of 5 seconds will be added to the contestant's time for each barrel knocked over.

Disqualification will result from crossing back over the starting line before completing run, or from breaking pattern. Judge's discretion or ruling will be final. The Senior Barrel Racing event is for female contestants only. **Underage barrel racers can correct the pattern if they do so before crossing back through the eye.**

6. **Pole Bending Regulations:** Six poles will be set in a straight line 21 feet apart. Start line will be 21 feet from the first pole. A running start may be used, with the flagger signaling start of time when contestant crosses start line. Contestant races to last pole, pivots it and bends back through poles, pivots first pole and bends back to last pole. He then pivots it and races back across the start line, at which point time will be stopped. Rake will occur every 7 pole benders.
Run may be started on either side of the poles. Contestants may set up or touch poles without penalty. A penalty of 5 seconds will be added to the contestant's time for each pole knocked over.
Disqualification will result from crossing back over the starting line before completing run, or from allowing the horses shoulder to pass a pole on the wrong side. Judge's discretion and ruling will be final.
The Senior Pole Bending event is for female contestants only. **Underage contestants can correct pattern if they do so before crossing through the eye.**
7. **Breakaway Roping Regulations:** Calf will be released and contestant will be allowed 45 seconds to rope or two loops thrown. Intermediate and Senior Breakaway contestants must carry 2 (two) ropes if a 2nd loop is to be thrown, and no loops may be rebuilt. Loop must be tied with string to saddle horn, and must be released from hand when calf is roped. The loop must go over the calf's head (or be a legal horn catch only when roping horned cattle) and catch as catch can. Time will stop when string breaks from horn. Steer must break the rope away from the horn. Any help beyond the eye in the underage barrel racing, pole bending or goat tail will be considered as assist and those contestants will be placed below all other contestants that have no assistance.

Contestants will receive a no time should they break the rope from the horn or if the flagger/field judge can determine if the rope was not tied on.

If animal escapes from the arena during 45 second run, flag will be dropped and the roper gets the calf back lap and tap with the time added which was taken when the calf left the arena. Officials present during breakaway roping will be as follows: field flagger/field judge, a deadline referee, and an experienced roper on horseback. Judge's discretion and ruling will be final.

Intermediate and Senior contestants will have a barrier placed in the box. A 10 (ten) second penalty will be added to the contestant's time if the barrier is broken by the contestant's horse before steer is released from the chute. Breakaway ropers must start out of the right box.

If the barrier malfunctions the contestant will be awarded an automatic rerun. If any other discrepancies occur at the roping chute, the decision will be made by the Arena Director and/or the flagger.

Senior Breakaway will be divided into two events, if there are at least (10) Cowgirls & (10) Cowboys in each division. This decision will be made annually by the Directors.

Junior Breakaway Sled Event Rules

The breakaway sled event for juniors is designed to be a safe, controlled preliminary step to roping live cattle.

1. Contestants will be allowed two loops in this event. They may either tie a second loop onto the saddle, or contestants may coil up to build a new loop.
2. The end of the rope will be tied to the saddle horn with either a piece of marking tape or light cotton string. The string will be provided by COWPRC and will be available by the roping boxes.
 3. The time for the event will start when the contestant leaves the roping box, and the time will be stopped when the contestant catches and the rope breaks from the saddle horn.
4. The same person on the same horse will pull the breakaway sled at a trot. The sled will be started at a given distance from the box and put in motion when the contestant nods their head.
5. If a contestant misses on his or her first try, the breakaway sled will be stopped while the contestant produces a new loop. When the contestant is ready he/she will need to nod for the sled will be put back in motion.
6. The contestant must throw their loop from a position behind the breakaway sled. Riding up beside the sled and "hooking" the dummy or

"laying" a loop on the sled is unacceptable.

The time for the event will be over when the sled reaches the end of the arena.

7. **Chute Dogging for Senior Boys:** To commence from bucking chute with one judge positioned at a line 8 (eight) feet in front of the chute or at the end of the gate swing. Time starts when nose of steer crosses the line. Contestant cannot hook or touch outside horn before crossing the line.

The official tailer will be an adult to tail all steers for contestants entered in the event. Tailer may only come in contact with the tail of the steer and may not assist in throwing the steer until the nose is hooked.

Contestant may not lose contact with the steer. Contestant will be flagged when steer is lying flat on its side, or on its back, with all four feet and head corresponding. Wrestler must have hand on steer when flagged. There will be a 30 second time limit.

8. Dally Team Roping: (60 second time limit, boys and/or girls)
Team may be composed of one contestant and one adult of 18 years or older. Full points will be given to header and heeler. (See Awards section of these rules for specifications on buckles awarded in this event.) A dally team roper can only enter once per rodeo.

Header will start behind barrier coming out of the left box and must throw the first loop at head. Heeler will come out of the right box starting behind the barrier line. There will be a ten second penalty assessed for breaking the barrier. Steer belongs to roper when he/she calls for him, regardless of what happens, with one exception: if the steer gets out of the arena, flag will be dropped and the roper gets the steer back lap and tap with the time added which was taken when the steer left the arena.

Steer belongs to contestant when he/she calls for it regardless of what happens, except in cases of mechanical failure.

Each contestant will be allowed to carry one rope. Roping steers without throwing the loop will be considered no catch. Roper must dally to stop steer. No tied ropes allowed. **Senior and Intermediate ropers will have a total of 2 throws. Juniors will get 3 throws total.**

Time will be taken when steer is roped, both horses facing steer in line, with ropes dallied and tight. Steer must be standing up when roped by head or heels.

All changes in lists of roping order to split horses, etc. must be made before any stock for that event is loaded in chute. After stock is loaded ropers must rope in order listed

Steer must not be handled roughly at any time; the ropers may be disqualified if in the opinion of the field judge they have intentionally done so.

If header accidentally jerks steer off of his feet or steer trips or falls, header must not drag steer over eight feet before steer regains his feet or the team will be disqualified.

A broken rope or dropped rope will be considered no time. No foul catches can be removed by hand.

If the barrier malfunctions the contestant will be awarded an automatic rerun. If any other discrepancies occur at the roping chute, the decision will be made by the Arena Director and/or the flagger.

If steer is roped by one horn, roper is not allowed to ride up and put rope over other horn or head with his hands.

If the heeler ropes a front foot or feet in the heel loop, this is a foul catch. Neither contestant may remove the front foot or feet from loop by hand. However, should the front foot or feet come out of the heel loop by the time the field flag judge drops his flag, time will be counted.
